### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with David Owen on June 16, 2006. The application has been amended as follows:

In the claims:

In claim 1, line 3, the expression "for independent guidance" has been changed to -- independently guiding --; and line 4, the expression "can be" has been changed to -- is --.

In claim 19, line 3, the expression "for independent guidance" has been changed to -- independently guiding --; and line 4, the expression "can be" has been changed to -- is --.

Claim 5 has been cancelled because claim 1 already includes all of the features of claim 5.

Claims 6 and 8-9 have been changed to depend from claim 1 because claim 5 has been cancelled.

In claim 7, "rubber-metal elements" has been changed to -- a rubber-metal structure -- so as to avoid the drawing correction requirement made in Office action mailed October 30, 2007.

In claim 11, lines 1-2, the expression "having two coil springs" has been changed to --wherein, said at least one coil spring includes two coil springs--.

In claim 15 has been replaced by claim 21 as follows:

-- Claim 21. A bogie comprising two wheel sets, each provided with a wheel set guidance assembly according to claim 1. --.

3. The proposed drawing filed on April 29, 2008 is not approved for entry because the change is not clearly supported by the originally filed disclosure. However, since the above change to claim 7 has been accepted by the applicant, the previous objection to the drawing is now withdrawn.

4. The above examiner's amendments were proposed by the examiner on June 9, 2008 to better define the instant claimed invention and to correct informalities so as to place the application in better condition for allowance. In response, Mr. Owen accepted the above examiner's amendment on June 16, 2008.

#### **REASON FOR ALLOWANCE**

5. The following is an examiner's statement of reasons for allowance: The wheel set guidance assembly of European reference 073 119 has been considered; wherein, elastomeric element 10 is capable of providing lateral stiffness or guidance; however, as described in lines 22-24, page 7 of the reference, the elastomeric element on other hand is arranged to provide shear stiffness to contribute to the vertical suspension stiffness. Accordingly, the European reference does not teach individual vertical, lateral and longitudinal guidance elements that independently guide the movement of the wheel set in vertical, lateral and longitudinal directions, and the stiffness of each

guidance element of the European reference does not appear to be selected, nor capable of being selected independent of other guidance elements, as required by instant independent claims 1 and 19. Such claimed features recited in instant claims 1 and 19 in combination with other instant claimed features, including the lateral guidance element being a spring element of anisotropic stiffness engaging a guidance pin, and the vertical guidance element being at least one vertically arranged coil spring, wherein, the guidance pin is positioned inside the coil spring, present a combination of features that is considered as being defined over the European reference. German reference DE 43 15 568 and European reference EP 624 505 have also been considered; wherein, coil springs 6 and elastomeric elements 7 are not individual vertical, lateral and longitudinal guidance elements that independently guide the movement of the wheel set in vertical, lateral and longitudinal directions, and the stiffness of each of the guidance elements of these references does not appear to be selected, nor capable of being selected independent of other guidance elements. German reference 26 44 964 has also been considered; however, it fails to meet the limitation of independent claims 1 and 19 for the same reasons described above. Accordingly, independent claims 1 and 19 along with claims depending therefrom are considered as being defined over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
